

CONSULTATION

SITE VISIT

One of our professional business development managers will arrange a site visit to gain an understanding of the challenges you face, both onsite and within the wider social area/environment.

RISK ASSESSMENT

Safety is paramount for all our installations to ensure that our installation engineers remain safe and comply with site and industry legislation at all times. To do this, we provide a highly detailed risk assessment designed to ensure that each and every installation is completed safely and without incident.

SPECIFICATION

Working with you we develop a unique system specification designed to provide you with the optimal security solution for your site, taking into consideration all that we have learnt from meeting with you and visiting your site.

PROPOSAL

The culmination of our consultation process, the proposal describes in detail the entire system and service range we have proposed to meet your site security needs.

CONSULTATION

BENEFIT FROM OUR 20 YEARS EXPERIENCE

CCTV Monitoring Ltd was formed to resolve the problems caused by opportunistic and professional theft from construction sites by using cost effective, technologically based CCTV alternatives to manned guards.

Since then, CCTV Monitoring Limited has grown to become one of the most respected construction site CCTV installation and monitoring businesses in the UK. Our honest, reliable and efficient approach has been proven on some of the most prestigious building sites for the biggest names in a variety of industries.
